

McCone Electric Co-op, Inc.

SCHEDULE N – NET METERING FOR INTERCONNECTED DISTRIBUTED RESOURCES

Rate Class 998 – IDR SERVICES NOT EXCEEDING 20 KW CAPACITY

Availability

Single phase (1Ø) service available for all uses, wherein an Interconnected Distributed Resource (IDR) of 20 kW or less has been approved by the Cooperative. Service is subject to the established rules and regulations of the Cooperative in regard to IDR as contained in Policy 4-16, “Interconnection of Co-Generation and Small Power Production Facilities.

Type of Service

Single phase (1Ø), 60 cycles, at available secondary voltages. The capacity of individual motors served under this schedule shall not exceed 10 horsepower except with the approval of the Cooperative. Service under this Rate Class is restricted from participating in any other Rate Class.

Rate

Base Charge \$77.50 per month
All kilowatt hours @ \$.11523 per kWh

Minimum Monthly Charge

The minimum monthly charge under the above rate shall be the base charge.

Terms of Payment

All amounts are due and payable upon receipt of bills rendered by the Cooperative. Failure to pay as prescribed shall subject consumer to the disconnection policy of the Cooperative in effect at that time.

Monthly Reconciliation of Net Metering

As part of this type of service the Cooperative shall allow the IDR to inject power into the Cooperative’s system and measure such power by allowing the meter dial to reverse direction. The meter shall be read monthly, by the Cooperative, and any net consumption during the monthly billing period shall be billed at the current kWh charge. Member generation in excess of their monthly usage will be “banked” for later use in the current 12 month period. The annual billing period for net metering begins on April 1 and ends on March 31 of the current year.
